

- On Line Services
- Technical Assistance
- Technician Training
- On Site Troubleshooting
And Computer Reflashing

Let Auto Aide Technical Services assist you in solving your automotive technical, training and troubleshooting needs.

On Line Services: Our on line services include unlimited access to online **Technical Training**, unlimited access to our **Fix Database** and unlimited access to our **Diagnostic Guide** as well as an information look up feature that can help you to locate hard to find information.

Technical Assistance: Our technical hotline offers you the option to talk to live, highly trained technicians who can assist you in troubleshooting difficult vehicle problems. Charges are applied on a per case basis and you will require a customer number to access this service

Technical Training: We offer a wide variety of topics ranging from Anti-Lock Brakes, Body and Chassis systems to Engine Performance, Diesel, Hybrid Systems and OBD Mode \$06. Our training classes are offered in both instructor led classes arranged through local representatives and in online self study format that you can take in the shop or at home as required.

On Site Troubleshooting and Computer Reflashing: This service is available to repair centers in the Greater Toronto Area including Simcoe County, Hamilton, Oshawa and surrounding regions. Our service vehicle is equipped with the latest in diagnostic equipment and computer reflashing hardware. We will come to your facility and diagnose or reflash vehicles you are having trouble with and we offer a **no fix no charge guarantee**. If we can't find the problem you don't pay. Charges are applied on a per case basis.

**Let us assist you in solving all of your
Automotive problems**
